DETAIL OF ACCREDITATION

Flexible Scope

Accredited testing at the UK Laboratory location though the modification of existing test methods including revised and technically equivalent methods to the activities listed below, in accordance with the documented in house procedure 17025 QP 31.

Information about flexible scopes is available in UKAS document GEN4: October 2019

Materials/Products tested	Type of test/Properties measured/Range of measurement	Standard specifications/ Equipment/Techniques used	Location Code
CLOTHING	<u>Physical Tests</u>		
Touch and Close Fasteners	Closure strength	SATRA TM123:2021	UK
Clothing, Fabrics and Finished Garments	Preparation, marking and measuring for dimensional change	ISO 4931:1986 (<i>withdrawn</i>) ISO 3759:1984 (<i>withdrawn</i>) EN ISO 3759:2011	UK
Textiles	Domestic washing and drying procedures for textile testing	ISO 6330:2021	UK
	Dimensional stability to washing	EN ISO 5077:2008	UK
Workwear	Industrial washing and finishing procedures for testing of workwear	EN ISO 15797:2018	UK

0248
Accredited to
ISO/IEC 17025:2017

Schedule of Accreditation

SATRA Technology Centre Limited
Issue No: 102 Issue date: 14 July 2025

Testing performed by the Organisation at the locations specified

Materials/Products tested	Type of test/Properties measured/Range of measurement	Standard specifications/ Equipment/Techniques used	Location Code
CONSTRUCTION	<u>Physical Testing</u>		
Insulation - Flat slab specimens	Determination of steady-state thermal resistance and related properties - Guarded hot plate	ISO 8302:1991	UK
Glass in Buildings	Thermally toughened soda lime silicate safety glass: tolerances, flatness, edgework, fragmentation, and physical and mechanical characteristics	EN 12150-1:2015 Clause 8	UK
Corrosion Resistance	Corrosion tests in artificial atmospheres - salt spray tests	ISO 9227-2022+A1:2024 (salt only)	UK
Building Products	Classification using data from reaction to fire tests.	BS EN 13501-1:2018**	UK
	Reaction to fire tests - ignitability of building products subjected to direct impingement of flame - Single flame source	EN ISO 11925-2:2002 (<i>withdrawn</i>) EN ISO 11925-2:2010 (<i>withdrawn</i>) EN ISO 11925-2:2020	UK
	Reaction to fire tests for building products - Conditioning - procedures and general rules for selection of substrates	EN 13238:2010	UK

Materials/Products tested	Type of test/Properties measured/Range of measurement	Standard specifications/ Equipment/Techniques used	Location Code
FLOOR COVERINGS	<u>Physical Testing</u>		
Floor coverings	Pendulum testers; Method of operation	BS 7976-2:2002+A1:2013 (withdrawn) BS EN 16165:2021	UK, S1
	Slip resistance; Walking Method - Ramp	DIN 51130:2014 (withdrawn) (excluding paragraph 6) DIN EN 16165:2021	UK
	Reaction to fire tests for floorings - determination of the burning behaviour using a radiant heat source	EN ISO 9239-1:2002 (withdrawn) EN ISO 9239-1:2010	UK
Resilient, Laminate and Textile Floor Coverings	Parameters for the measurement of dynamic coefficient of friction of floor surfaces	EN 13893:2002	UK
Resilient and Textile Floor Coverings	Castor chair test for wear behaviour	EN 985:2001	UK
Resilient & Textile Floor Coverings	Determination of the side length, squareness and straightness of tiles	BS EN ISO 24342:2024	UK
	Determination of residual indentation after static loading	EN ISO 24343-1:2012	UK
	Determination of dimensional stability and curling after exposure to heat	EN ISO 23999-2021	UK
	Determination of flexibility	EN ISO 24344:2012 Method A only	UK
	Physical testing of rubber. Determination of indentation by means of pocket hardness meters.	ISO 7619-1:2004 (withdrawn) ISO 7619-1:2010 (withdrawn)	UK
	Determination of resistance to stubbed and burning cigarettes. Method B.	EN 1399:1998	UK
	Determination of the electrical resistance	EN 1081:2018 Method A only	UK
	Assessment of static electrical propensity	EN 1815:2016	UK
	Determination of the effect of stains	EN ISO 26987:2012	UK

FLOOR COVERINGS (cont'd)	<u>Physical Testing</u> (cont'd)		
Resilient Floor Coverings	Resilient floor coverings. Polyvinyl chloride floor coverings with enhanced slip resistance - Specification. Annex D, Determination of wear resistance.	EN 13845: 2017 +C1: 2018	UK
	Polyvinyl chloride floor coverings for use in special wet areas - Water Tightness	EN 13553:2017	UK
	Determination of thickness swelling after partial immersion in water	BS ISO 24336:2005	UK
	Determination of abrasion resistance - Frick Taber test	EN 660-2:1999	UK
Textile Floor Coverings	Determination of thickness	ISO 1765:1986	UK
	Determination of resistance to damage at cut edges using modified Vettermann drum test	EN ISO 10833:2019	UK
	Determination of mass loss, fibre bind and stair nosing appearance change using the Lisson Tretrad machine	EN ISO 12951:2015 Tests A, C and D only	UK
	Production of changes in appearance by means of Vettermann Drum and Hexapod Tumbler testers	BS ISO 10361:2015 Method B Only	UK
Tiles	Determination of dimensional changes due to the effects of varied water and heat conditions and distortion out of plane	EN 986:2005	UK
	Resilient and textile floor-coverings — Determination of side length, edge straightness and squareness of tiles	ISO 24342:2024	UK
Textile Floor Coverings	Determination of the effects of a small ignition (hot metal nut)	BS 4790:1987	UK
	Specification for assessment and labelling of textile floor coverings tested to BS4790	BS 5287:1988	UK
	Assessment of static electrical propensity walking test	BS ISO 6356:2012 Method A only	UK
	Determination of electrical resistance	BS ISO 10965:2011	UK

****Appendix – BS EN 13501 Fire Classification:**

Introduction

The definitive statement of the accreditation status of a testing laboratory is the Accreditation Certificate and the associated Schedule of Accreditation. This Schedule of Accreditation is a critical document as it defines the extent of the activities for which the organisation holds accreditation.

BS EN 13501 Fire Classification Requirements: Such classifications shall be based on recognised Direct Field of Application (DIAP) or Extended Field of Application (EXAP) that refers to a standard prepared by or approved by CEN/TC 127 "Fire safety in buildings" or a product standard which includes full information on testing to support the EXAP.

The schedule entry does not cover any Expert judgements (i.e. an opinion that is not considered/covered by an EXAP standard and/or is only based on the experience of an individual(s)).

END
